UNIVERSITY OF MINNESOTA
NDSR
NUTRITION DATA SYSTEM FOR RESEARCH

Overview: NDSR is the primary licensing option for research purposes, offering full features, nutrient calculations, and reporting and output file functionality. The license is a one-time fee with software and technical support provided through the first year. Database upgrades and ongoing user support benefits are provided with the purchase of an annual support agreement.

Support: Services provided include NDSR upgrades, software and technical support, and up to 30 missing food resolutions per year for the initial license.

Price: Initial copy is $5,925 and each additional copy is $3,850. After the first year, annual support for the initial copy is $3,950 per year and support for each additional copy is $625 per year.

Licensing Process: Please complete the form below and return to NCC User Support at ndsrhelp@umn.edu. After the form is received, a member of the User Support team will provide copies of the License agreement and Support agreement to sign and return. After NCC receives the signed agreements, please allow up to 1-2 weeks to receive an invoice.
