Data Entry Quality Assurance	$15.50/recall
Quality Assurance Review	$22/recall
Quality Assurance Review + DSAM	$29/recall
	PLUS Indirect Cost Rate (ICR)[d]

[a] Study Initiation (Setup) Charge - This cost includes preparing the University of Minnesota IRB application, developing a manual of procedures specific to the study, setting up a data logbook for participants, and training and certifying NCC interviewers on the study-specific protocol. Typical set up charge is $2000 but can vary according to the complexity of the study.

[b]Principal Investigator Oversight – The University of Minnesota requires ethical, procedural and financial oversight of research being conducted at the University. Dr. Lisa Harnack, DrPH, RD provides general oversight for all NCC studies conducted by researchers outside of the University of Minnesota. Dr. Harnack meets regularly with the project manager to review work priorities, assess work progress and overview timelines. She is available as needed to attend project meetings.

[c]University of Minnesota IRB Fee – The University of Minnesota IRB assesses a fee of $2500 for reviewing *industry* funded sponsored project IRB applications. Continuing reviews will be completed for subsequent years of the project at no additional charge.

[d]The University of Minnesota will apply (add) a facilities and administrative/indirect cost to projects based on established rates. For NIH funded studies, the indirect rate is currently 52%.
